

«DEUXIÈME DÉSINTÉGRATION» ADD FUEL'S SOLO SHOW

PRESS RELEASE / MARCH 29TH, 2019

Itinerrance Gallery is proud to present "Deuxième Désintégration" the first solo exhibition by Portuguese artist ADD FUEL in Paris, France!

Based on the practice of articulation and reinterpretation that has characterized his artistic activity, ADD FUEL presents in "Deuxième Désintégration" a new exploration of "Désintégration", a thematic first developed for his first project in Paris, with Gallery Itinerrance in the Tour Paris 13 (2013).

Based on the decontextualization of traditional motifs, this new body of work enhances the artists desire to bring forward his cultural roots, giving them a new life, playing with the audience's sense of sight and expectation, whilst disintegrating the square tile element into several new shapes and compositions.

"Deuxième Désintégration" was built with a set of visual references, patterns drawn from the artist's mind to hand in an intuitive process, with no limitations on visual thematic or specific influences other than the immediate ones on his mind.

The opening is going to take place in presence of the artist.

We are looking forward to welcoming you on Friday April 12th 2019, from 6pm to 9pm.
